

AV Modulator

with IR-TV Link

DISTRIBUTE AV SIGNALS

without an internal
RF modulator

MOD-SLX-IR TV-LINK COMPATIBLE A/V MODULATOR

The SpaceTV MOD-SLX-IR modulator allows for the distribution of content from any audiovisual equipment (Satellite Receivers, DVR's, DVD Players etc.) via a RF signal. The modulator is well suited for use with equipment without an internal RF modulator.

- UHF Modulator – PAL I /BG Selectable
- Test Function – Allows for setup without Input source
- Twin RF Outputs – Output 2 for use with SLX and TV-Links
- RF Output Channel selectable via Dip Switches
- 0-5dB Gain on RF loop through
- Compatible with Set Top Boxes and other A/V sources
