

AV Wall Mount

For DVD players and AV components

HEIGHT ADJUSTABLE WALL MOUNT

Adjustable Double Shelf for AV Components

The **TVARMECVT02** is a single-column AV component system that mounts directly under wall-mounted TVs for a sleek, streamlined look. Its thick tempered glass can hold up to 8kg of DVD players or most any other AV components. The tempered glass shelf to be installed on the shelf holder can be vertically adjusted along the steel wall plate to accommodate any AV component arrangement. The center column features two integrated channels for easy power cable and signal wire routing.
