PROJECTOR BRACKET CEILING MOUNT

Height adjustable
360° rotating

The **TVARMPRO2** is an aluminum ceiling bracket for most projectors up to 10kgs. 360° rotating and 15° tilting allows multi-angle projection. It offers flexible projector positioning with three support arms that can fit a wide range of mounting holes. The quick release connector allows the projector to be installed quickly and then easily released for maintenance, without re-alignment. Height adjustable from 130mm to 1060mm to meet different needs

Material:	Aluminum
Surface Finish:	Sand-blasted Anodic Oxidation
Color:	Silver
Dimensions:	320x320x1060mm
Mounting Range:	130~320mm
